

DomainNameHostingDesign.com, DNHD Affiliates and TIBUSA, LLC Domain Name Transfer Policy

To transfer a domain name registration to another registrar from DNHD, the customer seeking to transfer the domain name registration must initiate the transfer request with the gaining registrar. The customer's current WHOIS Administrative Contact of record listed in DNHD's WHOIS account must approve the transfer by providing express authorization to the gaining registrar in a valid Standardized Form of Authorization.

DNHD will then send an e-mail to the Primary Contact of the domain name(s) indicating that it has received a transfer request from the gaining registrar for such domain name(s). The Primary Contact may choose to approve or deny the transfer. Additionally, DNHD may deny a transfer request in certain circumstances approved of in the Internet Corporation of Assigned Names and Numbers (ICANN) Policy on Transfer of Registrations between Registrars.

All the domain transfers for applicable Global Top Level domains will strictly follow the rules and regulations set by the [ICANN Inter-Registrar Transfer Policy](#).
